Objective:

Computer Science student with a passion for coding and a drive to build impactful projects with dynamic teams.

Skills:

- **Programming & Scripting:** JavaScript (Next.js), ASP.NET (MVC, Entity Framework, Web API), C++, C#, Python, PHP
- **Frontend Development:** HTML, CSS, Tailwind CSS, JavaScript
- **Database Management:** PostgreSQL, MySQL, Oracle Database
- **Tools & Frameworks:** Overleaf, WordPress, Entity Framework

Education:

- **Bachelor of Science in Computer Science & Engineering**
American International University-Bangladesh 2021 - 2025
CGPA: 3.61/4.00
- **Higher Secondary Certificate, Science (HSC)**
Shahzadpur Govt College 2019 - 2020
GPA: 5.00/5.00
- **Secondary School Certificate, Science (SSC)**
Shahzadpur Ibrahim Pilot Girl's High School 2017 - 2018
GPA: 5.00/5.00

Projects:

- **IT Website:** Created and managed an IT blog using WordPress by customizing Elementor templates, adding pages, and configuring website structure, and focused on content organization, responsive layout, and user-friendly navigation.
Technologies: WordPress, Elementor
- **Car Shop Management:** Built a car shop system with a user-friendly frontend (HTML, CSS) and backend using PHP (MVC). Managed inventory and customer data with MySQL. Added features like product search, order tracking, and price bargaining with shop owners.
Technologies: HTML, CSS, MVC Architecture, XAMPP, PHP
- **GemSphere:** Built a jewelry shop e-commerce site using C# and MySQL with product browsing, shopping cart, and order tracking features. Focused on proper database design and smooth user experience.
Technologies: C #, .NET Desktop App. MySQL Server
- **MoonQuest:** A computer graphics animation showcasing a rocket journey from AIUB to the moon, featuring galaxy views, moon landing scenes, interactive exploration, realistic visuals, and sound.
Technologies: C++, OpenGL

Achievements:

- Cisco Networking Academy- IT Essentials from Cisco Networking Academy and
- AIUB Girls' Programming Contest
